

OPTIONS FOR GIFTING APPRECIATED ASSETS

In 2013, an investor purchased 1,000 shares of XYZ stock at \$10/share. After holding the stock for 10 years, he is thrilled to see that XYZ is now trading at \$100/share. With XYZ at an all-time high, he feels it's time to sell the stock and take the profit, but is concerned about the tax liability on the sale and doesn't have an immediate need for the funds. The investor's financial advisor knows that he is charitably inclined and proposed the idea of gifting the stock. He likes the idea and together they review the options below:

XYZ STOCK			
Share Price in 2023	\$100	Fair Market Value	\$100,000
Share Price in 2013	\$10	Cost Basis	\$10,000
		Unrealized Gain	\$90,000
